

# Connect

# Colours

A Blue Stamp Travel Game

blue.stamp.travel

Blue Stamp Travel

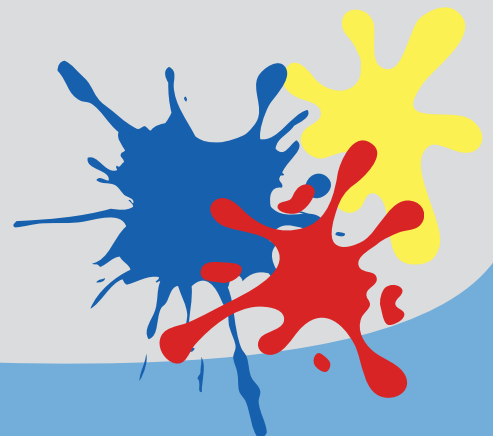

stamp\_travel

blue.stamp.travel

# Instructions

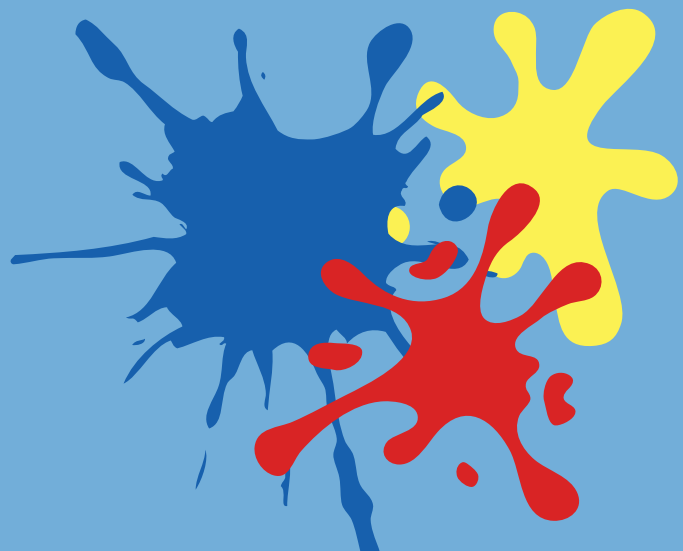

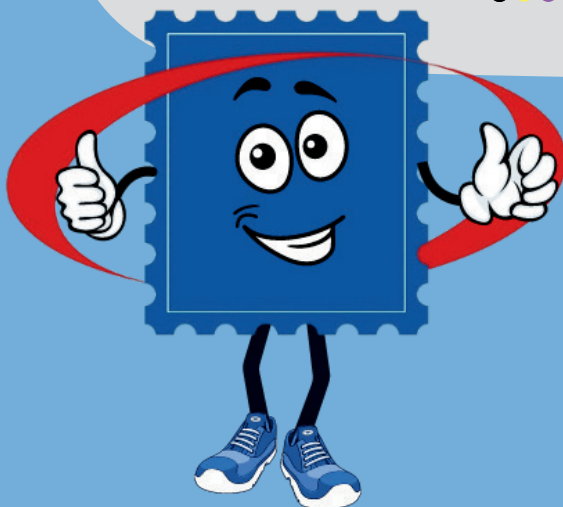

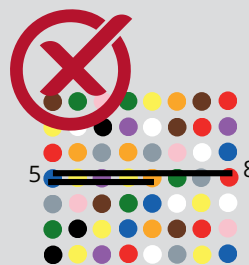

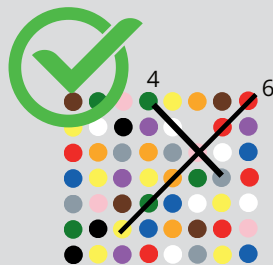

- Before starting the game the colours can be introduced on the back of the game sheet.
- The caller (or teacher) will call out colours in the target language, using the provided list. (You may choose to write them on the board to refer back to.)
- Students cross out all of the circles of the colour as they hear it.
- If they make a line of 4,5,6,7 or 8 they draw a line through the connected colours and tick the box at the bottom of the page.
- If all boxes at the bottom are ticked off, students will raise their hands to claim their win!
- Feel free to keep going for 2nd and 3rd place, this will also enable you to list more colours.
- **As a longer variation, you can tell students to mark only one colour circle at a time rather than all of the same colour. (More chance to call out colours)**
- **Players can also take turns to choose the colour.**

# Rules

Feel free to add your own rules as you find ways that work best for your classroom, but the game works best with this rule:

- Lines can't overlap, but they can cross. For example, creating an 8 out of the existing 5 (that has already been ticked) is not allowed. Crossing two complete lines is allowed.

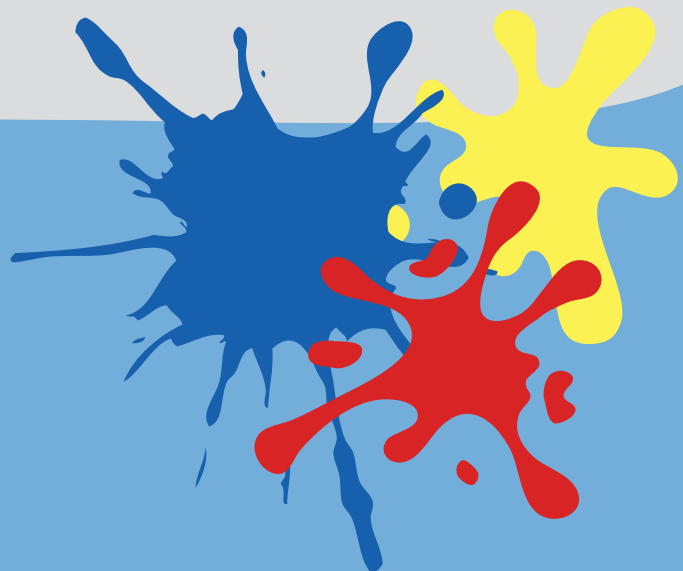

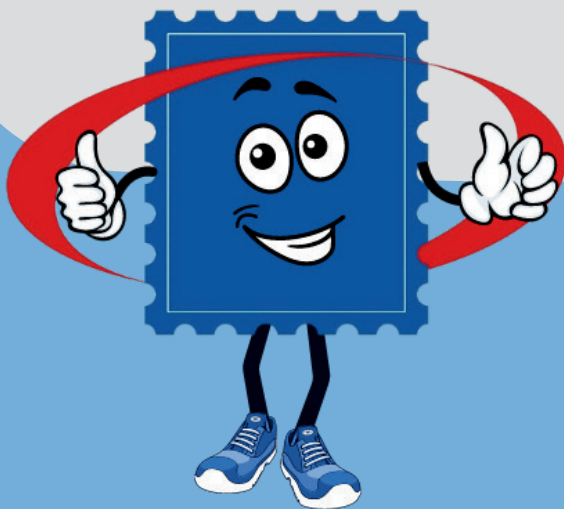

# Printing Instructions

There are a total of 30 unique cards. Print pages 5 - 64: Portrait, 2 pages per 1 sheet on A4, double-sided (flip on the short edge).

A4 sheets can be cut to A5 each with a colour list and a game card.

Tip: You can laminate the cards or use plastic wallets over the cards so players can use whiteboard markers, wipe and reuse the game cards.
